J. MENKE, Stellvertreter des Consuls.

BEKANNTMACHUNG. Da nach officiellen Nachrichten in Japan der Krieg zwischen Seiner Majestät dem Mikado und dem Taikuhn ausgebrochen ist, und die Beobachtung strenger Neutralitat dadurch nothwendig wird, so macht der Unterzeichnete Geschüftsträger Seiner Majestät des Königs von Preussen in Japan die preussischen Unterthanen und Schutzgenossen darauf aufmerksam, dass ieine Betheiligung an dem Kriege, selbst in der Eigenschaft als Nicht Combattant, die Zuführung von Kriegs und Transportschif-Wharf, lately occupied by Messrs fen, die Zuführung und Beförderung von Militärpersonen, Depeschen und zur Kriegscontrebande gehörigen Gegenständen in preussischen Kauffahrteischiffen für irgend einen der beiden Theile nach den Grundsätzen des Volkerrechts eine Verletzung der Neutralität in sich schliessen und als feind-

liche geglindet werden können. Die im Militärdienste hefindlichen Personen können daher nach Kriegsgebrauch behandelt werden, während die Schiffe und sonstigen Transportmittel der Wegnahme and Confiscation unterliegen, welche auch auf die Uebrige, etwa vorhandene, Neutralen gehörige Ladung ausgedehnt werden

Jede Verletzung der Neutralität durch preussische Unterthanen und Schiffe würde dieselben ausserdem der Gefahr aussetzen, THE BUSINESS PREMISES, formerly dhrer Ansprüche auf den Schutz der Königlichen Rogierung sowie auf die in dem preussisch-japanischen Vertrage garantirten Rechta und Privilegien verlustig zu gehen. Hiogo, Kobé, den 18ten Februar, 1868. Der Königliche Geschäfteträger.

HOLLOWAY'S PILLS & GINTMENT HOLLOWAY'S PILLS. HIS Medicine is universally admitted to be the most efficacious remedy known to the world. No preparation is so suitable to the climates of India and China as this fine and invigorating medicine. It is particularly adapted to the constitution of European ladies, as it is never failing in its effects in all diseases peculiar to females, while those who are attenuated by the debilitating effects of the above climates will find in this wonderful remedy a kind of talisman whereby they may insure a restoration to robust health.

.. HOLLOWAY'S OINTMENT, The science of Medicine has never before produced any remedy that can be compared to this wonderful Uintment, as it cures after all other means have failed, sall wounds, sores, ulcers, and also the most inveterate skin diseases peculiar to the climates of India and China. It is the true friend of the Soldier and Civilian, as certain old sores can be removed by it that cannot be conquered by any other treat-

HONGKONG, WEDNESDAY, AIRIL 22, 1868

EXPLORATION OF THE YELLOW

THE decision arrived at by the China Asiatic Society to raise funds for the exploration of the Yellow River is a cheering sign of vitality, so far as the Society is concerned. But we cannot see that the duty of providing the money necessary for an expedition which may their heels, he wreaked his vengeance upon bear important results to both foreign nations and China, ought, in any way. to devolve upon a body whose pursuit and aim are purely literary and scientific. That the selection of a qualified person to accompany a party bound on geographical research in China, who should record in precise and scientific terms the actual results arrived at should be vested in and confided to the society seems reasonable and proper. But the results of any such enterprise, whether favorable or unfavorable, refer so exclusively to the comare in duty bound to provide the necessary means. To impress upon the Chinese mind an idea that the opening up of a new artery of trade would be advantageous to national interests would very probably be a waste of time. that part of a question is easily dealt with by insisting that the exploring party be furnished with proper protection, than which no further Chinese aid need be required. But the governments of England, the United States and France could well afford the paltry subscription some five hundred or one thousand dollars, which, it is estimated, would cover all necessary expenses, while the mercantile community would most probably be able to place a small steam vessel at the disposal of the expedition. We should at least advocate an appeal to official help in the first place, not merely as a matter of expense, but on account of the greater importance which would attach to the report of a party started under government auspices, than to the equally perfect but less public efforts of a scientihe body only. If the British and American governments are unwilling to risk the loss of the enormous sum we have named, our lively allies the French-(the ception of how to deal with the Chinese) fectionate" (as the Yankees say) their the public spirit which induces the Asia- about a year ago. tic Society to come forward, we are unwilling to see an enterprise upon which much will depend regarding our future intercourse with the Northern provinces, left in the hands of those who will be able to hope only for a scientific in place solicitor in the bankruptcy. of a political and commercial result their efforts.

For instance, one ger.tleman said that the military contribution | ruptcy. fell upon the European residents of this colony, whereas it is upon record that four-sevenths of the general revenue derived from the Chinese. Then there were some courtesies interchanged about our roads; but everybody fought shy of the gambling fee. The time is come when the association, if it is to effect any good, should speak out, and declare to its Loudon coadjutors, what its opinions are, on (for instance) the cost of local administration here. Ought \$400,000 year to be absorbed on departmental were armed with new powers to cut down expenses in the management of so costly an estate? The Association has taken upon to the home parliament. #### THE POLITICAL CRISIS IN AMERICA

We find the following in American paper: General Thomas was appointed by the Pre-mident Secretary of War, displacing Stanton, and this is what followed thereupon :-

Washington, Feb. 22nd.—This morning General Lorenzo Thomas was arrested by Marshal Gooding for attempting to interfere with the duties of the Secretary of War, in violation of the Tenure of Office Act. He was brought before Judge Carter, of the Criminal Court, this morning, but waived an examination, and was released on bail of five thousand dollars to appear at 10 o'clock on Monday. The Journal's special says after his release by Judge Carter, General Thomas went to the War Office and démanded possession. Mr Stanton ordered him to leave the office, and threatened to put him under military arrest, whereupor General Thomas went to the White House to consult with the President.

About half-past 11 a.m., General Lorenzo

Thomas having just been released on bail by Judge Carter, presented himself at the door and told Mr Stanton that he would like to see him. Mr Stanton requested him to proceed with anything he had to say. Gou. Thomas remarked he had come discharge the duries of Secretary of War ad interim, having been ordered to do so by the President of the United States. Mr Stanton replied that he could do no such thing, and ordered him to his room, to perform his dutienas Adjutant General. Gen. Thomas replied that he had been ordered by the Presiden to act as Secretary of War ad interim, and he intended to do it. Stanton again replied that he should not, and again ordered him to his own room, and denied the power of the President to make any such order Thomas said that he would not go, and that he should obey the orders of the President. and not obey the orders of Stauton. I shall require the mails for the War Department to be delivered me, and shall transact all the business the War Department."

At this juncture General Grant and an Aid came in; and the General remarked playfully to Mr Stanton and his friends, I am surprised to find you here; I sup posed you would be at my head quarters for protection."

With the exception of would be utterly impossible, in a condens. the comparative thinness of the paper, the ed notice of such a work, to give an ade. getting-up of the work is very creditable to quate idea of its contents. The historical all concerned; and we have sincere pleasure events of interest since the foundation of in congratulating the authors and publishers the settlement of Hongkong, are perhaps on the considerable merit of their admirable too much condensed into a general summa- enterprise and performance. ry; but the most important feature in the composition of the society of the present colony, is detailed at greater length When we come to consider that the book before us makes no pretensions to be a history, but merely a guide book, we cannot hesitate to pronounce it at once the most complete work of its kind ever issued. The Appendix may be termed the China Bradshaw, and the text teems with interesting papers, -historical, botanical, and descriptive. The maps and plans are useful illustrations of the geographical position of the treaty ports, and a valuable assistance both to travellers and residents.

From the Englishman (Calcutta) of June 8:-Abbé Huc on China, and Sir Rutherford Alcock's account of Japan are, no doubt, works of a far higher class and more extensive scope than the one now before us; but for practical utility, for all purposes of locomotion, trading and residence in any of the places coming within its compass, The Treaty Ports of China and Japan, by Messrs Mayers, Dennys and Bradshaw's Guide, -all as complete and excellent in their own line as could be expected; and though, perhaps, the book will not prove attractive to students, it is calculated to give a more intimate knowledge of the towns it describes, aided by the excellent maps which accompany it-the work entirely of Chinese-than any of the more elaborated works that have preceded \* \* \* We trust we have said enough a show that for any one about to visit, or reside in either of the countries described. this work contains not only most valuable information, but many useful hints, a

A work of the kind was much needed, to place within reach of the general public information regarding the districts in which they reside that had hitherto been concealed under the mysterious hieroglyphics of the Chinese language, or at best open only to sinologues. The modest hope expressed by the authors, that much wil be found in the present book that is new and unknown to the general reader, is, we think, fully justified. \* Hongkong and Cauton, for example, each occupy more than 100 pages, comprising every conceiv able particular regarding them, from their history native and foreign, to particulars of the geological formation and botanical wealth of the neighbourhood. \* \* \* Not the least interesting feature in the book under review, is the insight it affords us into the character of the population in dif- number of " Notes and Queries on China ferent parts of this vast empire. \* \* One and Japan." Shanghar Recorder May 7, and Supreme Court and Consular Gazette, May 11, 1867. A very useful book has just been issued from the Press in Hongkong under the title of the "Guide Book and Vade-meeum to the Treaty Ports of China and Japan," compiled and edited by Mr N. B. Dennys. The Book is very conveniently got up; is interspersed with maps of the various treaty ports, and contains, besides much useful local information, historical sketches of much interest. Our readers will feel naturally interested in what is said concernticulars which can be required by the number and length of its contributions. traveller or resident are to be found in The work will be received with eagerness this work, which may be justly regarded as by literary men, as throwing light upon the "Murray" for China.

From the Hankow Times, May 18. We feel it to be a public duty to take the first opportunity of calling attention to the "Guide Book and Vade Mecum" just i sucd for "travellers, merchants, and residents in general," in the Treaty Ports of China and Japan, by Messes Shortrede & THOSE COUNTRIES, TOGETHER WITH PE- Co., of Hongkong. \* \* \* The order description of the various places follows their position on, or from the coast, as we'l go northward. In each instance the histo ry, position, means of access, accommodation, foreign residences, public buildings community, mode and cost of living, mate, associations, amusements, places of interest, native institutions, population, local government, natural history, productions and statistics of trade are given, along with a miscellaneous detail of facts and incident in connection with particular localities. far as we are able to practically test the individual descriptions of the various places, they are given with a considerable degre of fairness and fulness.
